EXPERIENCES

NELNET | CORPORATE ACCOUNTING INTERN

March 2025 - Present

- Maintain and prepare various financial schedules, specifically focusing on investments: bonds, real estate, and venture capital.
- Support compliance with accounting regulations and internal controls by completing annual control testing, reviewing SOC1 reports, and coordinating with external public auditors for control walkthroughs.
- Prepare supplier invoices and adjusting journal entries for each quarter, including accruals, impairments, and capital calls.

CREEVO | CO-FOUNDER & CFO

April 2025 - Present

- Co-founder of an AI-agentic powered game creation startup, abstracting complex code for video game developers.
- Directed all financial planning and fundraising initiatives, including budgeting, cash flow forecasting, and preparation of investor materials, securing venture capital support to accelerate product development on top of the Godot engine.
- Developing leadership skills while co-managing with 3 co-founders an 8-person team; standardizing processes and roadmaps.

HNRS FINANCIAL & MANAGERIAL ACCOUNTING | TEACHING ASSISTANT

Spring 2025

- Facilitate student learning by providing guidance and support in understanding complex financial and managerial accounting concepts through one-on-one assistance, group discussions, and review sessions.

MUTUAL OF OMAHA | DESIGN STUDIO SOFTWARE DEVELOPER

2024 - 2025

- Created an internal LLM claims assistant chatbot to incorporate the newest AI technologies (AWS Agents for Bedrock, Agents, Anthropic LLMs) into the insurance industry. Improving efficiency of claims associates by up to 33% during calls.

TERMSHEET | SOFTWARE ENGINEERING INTERN

Summer 2024

- Contributed towards a dynamic and scalable operating system for commercial real estate investment companies.
- Created agents utilizing LLMs to transform data in Excel and PDF formats to configuration languages for easy transferring of data into the Termsheet platform. Worked with LangGraph to add tools, such as an OCR implementation, to existing models to increase capabilities of AI for real estate investors.

BEST BRAINS | PRIVATE PYTHON CODING TUTOR

2023 - 2024
